

Vector

Code

```
class Vector
{
    float x, y, z;

    Vector();
    Vector(float x_, float y_, float z_);
    Vector(const Vector &V_);

    void Set(float x_, float y_, float z_);
    float GetLen();
    Vector GetNormal();
};
```

Alles anzeigen

Code

```
extern const Vector NULLVECTOR;
```
